THE JOURNAL OF SIBERIAN FEDERAL UNIVERSITY IS OUR OFFICIAL PARTNER

Selected conference papers will be recommended by our Scientific Board for publication in the journal

[Журнал Сибирского федерального университета. Биология / Journal of Siberian Federal University. Biology](#)

In agreement with the Editorial Board, a special issue of the journal with about 10 selected conference papers will be published free of charge for the authors.

Selection of the most interesting and scientifically sound papers for this special issue of *JSFU* will be conducted in two stages, i.e. by a preliminary screening of the submitted abstracts followed by evaluation of the actual presentations. Authors of the selected papers will then be contacted and asked to prepare manuscripts in Russian or English language in compliance with the journal rules http://journal.sfu-kras.ru/sites/journal.sfu-kras.ru/files/rules-bio_0.pdf

We will perform a “quality control” to ensure that the manuscripts comply with that rules. Thereafter, the manuscripts will be submitted to the journal, where they will be subjected to blind reviews by at least two international experts from respective fields.
